

WUNDERLICH "ENDURO" REAR CONVERSION WITH REAR LIGHT

363,70€

27761-001. Because of the good design of the fenders which have been made, the classical design element combines a sporty converted G/S from the 80s with current materials technology and minimal LED light technology.

The nineT merges with this rear closer to create a design unit as if from a single mould
Can be combined with single seats, one-piece seats, or the driver's seat plus pillion seat

Thermoformed ABS plastic

Specially-developed licence plate holder – but can nevertheless also be combined with all other
licence plate holders

With integrated rear/brake light

5 year warranty

Made in Germany

Plug & play – all electrical connections are created with plugs/adapters – no
soldering/damaging of the original cable tree necessary

Can be combined with the following products:

38981-502 – Enduro licence plate holder

38981-302 – Swing licence plate holder

38981-002 – LOW licence plate holder

38983-002 – LED blinker moto gadget m-pin

SKU: 27761-001
