R nineT (2014 –

Normally, rain and dirt do easily fall on passenger, luggage and even on the back of the driver.

But this height adjustable supplement closes this “gap”

at the GS models. Furthermore, it is no problem to take the original splash guard off for Offroad

use. Depending on the size of the license plate and the

wish of the driver, the extension is infinitely variable. Especially for the GS, we have developed a

new design, the reaches far to the back and

“catches” the ascending beam more effectively.

Finally, an emblem frame was placed in the extension, where the enclosed original BMW emblem perfectly fits into. – Legal Notice: This product is not an

Original BMW Part (except the emblem of course).

Thermoformed, light and virtually indestructible ABS plastic.

SKU: 27760-300
