

WUNDERLICH HANDLEBAR RISER ERGO+ – SILVER, R 1250R, R 1200R/RS LC, R 1250RS

149,90€

31000-301. A combination of riser and also a handlebar displacement towards the rider. The result is a significantly more relaxed touring sitting position and a true "touring" feeling. Height increase of 35 mm and displacement of 25 mm to the rider.

Improved handling.

More direct riding feel.

Relaxed, upright riding posture.

Riding without tiring and with better control.

Anodised silver.

Individually milled from strong Dural aluminium

Made in Germany

Complete with bolt set.

ABE approved.

5 years guarantee

Before fitting the handlebar risers you have to mount and vent the clutch cable in a stress relieved way. Therefore we strongly suggest that you entrust this installation to a knowledgeable and properly equipped technician. Position the handlebar to zero.

Note: Handlebar riser does not fit in combination with original navigation bracket.
