

WUNDERLICH HELMET ANTI-THEFT SYSTEM »HELM-LOCK«

83,30€

44320-000. The safest and easy to handle helmet anti-theft system for the new R 1200 GS LC and Adventure LC.

Thanks to an additional, spring supported locking bar it's absolutely impossible to open the slings without pulling up the seat. That makes our anti-theft system completely different from many other models.

The carefully covered security rope takes two helmets at the same time and, when is not needed, can be simply stowed in the suspension unit. An enormously helpful product. Once you own it, you wouldn't miss it anymore..

The facts: Easy anti-theft securing of up to two helmets.

No additional lock etc. needed. Access to release is protected by the seat lock.

The aluminium suspension unit is fastened under the seat by means of two screws.

Safety rope can be stowed in the suspension unit when is not used.

5 mm steel rope.

High-strength grouting.

With stainless steel reinforced thimble to protect the rope.

Thick silicon coating against abrasion and paint damages.

Includes mounting set.
