

WUNDERLICH LUGGAGE RAIL FOR ORIGINAL VARIO CASE R 1200/1250 GS LC - LEFT - BLACK

145,00€

20571-102. It's a well-known fact that you can never have enough luggage on a tourer. That's why lots of motorcyclists transport additional soft luggage such as bags, rolls, tent, etc. on the side cases. We've developed these brilliant luggage rails for this purpose.

They mount on the original brackets for the Vario cases simply and securely without having to drill the cases. With the mounted luggage rails, even with luggage attached the cases can of course also be opened no problem and the volumes adjusted. The luggage can be tied down securely thanks to the practical lashing rings.

The facts:

Luggage rail for the original BMW Vario cases

Simple mounting on the case carrier

No drilling of the case required, so no leaks

No impairment of the functions of the case even with luggage attached

Light, high-stability stainless steel, so no aluminium dust on the luggage

Perfect for soft luggage such as rolls and bags

Four lashing rings per rail for perfect luggage hold

Firm, wobble-free positioning

Includes complete fitting set

5 year warranty

Made in Germany
