

WUNDERLICH LUGGAGE WALL BRACKET SYSTEM R 1200/1250 GS ADV.

156,20€

44901-300. These wall brackets for the original cases are a great invention. They're mounted to the wall in the carport, garage or workshop. The lockable cases can then be stored in a space-saving way and without the risk of theft or falling over, they are - as they are on the bike - locked to the bracket with the original key.

The cases thus get their dedicated space and the search for a suitable storage location is over.
