

WUNDERLICH SCREEN WIND GUARD ERGO – SMOKED GREY R 1200GS LC, R 1250 GS/ GSA

189,90€

42711-106. This wind guard perfects the wind protection on the GS. It attaches directly above the headlight and thus efficiently closes the gap between the headlights and screen. The wind guard fits very inconspicuously into the design of the front and is composed of the same material as our screen.

The facts:

- Once again improved wind protection up to top speed
- Significantly quieter and even less turbulence
- Highly robust, optically pure and petrol-resistant Lexan plastic
- 6 mm material thickness
- Simple assembly
- Transparent design, also available in smoky grey
