

WUNDERLICH TAIL LIGHT ELECTRICS KIT

31,20€

44109-000. This adapter lets you modify a tail section by switching the tail light significantly easier. Thanks to the practical set with standard plugs, there's no longer any need for soldering work on the cables because the plugs are compatible with the original plugs. This means all conversion works can also be quickly undone again with no additional effort.

Note: this is the adapter for the tail light, we also offer an adapter for the indicators with item no. 44109-100).
