

WUNDERLICH VARIO JOINT DRIVER (PAIR) – SILVER

52,00€

31550-000. Our Vario rest system is the ultimate solution when it comes to adjustable footrests.

With an adjustment range of 100 mm diameter, it leaves nothing to be desired. No matter whether you've got big feet or small ones, whether you want to increase the lean angle freedom or just comfortably relieve the knee angle. The eightfold adjustment option of a full 360° ensures enormous flexibility. This win for comfort is available for rider and passenger. For sporty riders, we also offer the rests in a bevelled design. The delivery always comes with ABE. All parts are made from high-solidity aluminium and anodises in silver or black.

The Vario joint, the Vario adapter and the desired footrest for each side are all required for complete assembly.

The base of the system is the silver or black Vario joint that matches the corresponding vehicle model, with the joint being mounted on the footrest bracket in place of the footrest.

A Vario adapter is mounted on this, the adapter is also available in silver or black and is available in lengths of 23 mm (item no. 25912-000 in silver, 25912-002 in black), 30 mm (item no. 25912-030 in silver, 25912-032 in black) or (item no. 25912-050 in silver, 25912-052 in black) 50 mm. It can be attached in eight different directions.

The silver (item no. 25911-001) or black footrest (item no. 25911-002) is now attached to the adapter, which can also be fitted with a rubber insert (item no. 25913-002).
