We developed in all direction the MARATHON screen into a GTL, so we realised an optimal and turbulence-free touring enjoyment – without the extreme sucking in-effect of GTL. That's why the screen is suitable for both GT and GTL.

The facts:

- Larger and higher than GT screen.
- Bigger gap between fairing and screen, than means less sucking in- effect.
- Turbulence-free through different break off point.
- Higher screen, between GT and GTL screen.
- Clear, optical pure.
- High form stability.
- Break-proof.
- Scratch resistant.
- Low own vibration.
- Optimal view in every situation.
- 5 mm thick Lexan plastic.
- Clear, polished and rounded edges, no edge protection/border bulge needed.
- ABE approved.
