

WUNDERLICH WINDSHIELD EXTENSION »VARIO-ERGO 3D+« – CLEAR

145,80€

The individually definable spoiler edge eliminates the problems of the original windshield.

Turbulence and noise are thus greatly reduced.

The facts:

- Individually installable add-on spoiler (incline, height, and distance to driver).
 - Optimal relief for helmet body and upper body.
- Elimination of turbulence from and incorrect inflow of the original disc.
 - Easy adjustment.
 - Quick to install or remove.
 - Secure fit.
- Weight-optimised, milled bracket mechanism.
 - Anodised dual aluminium.
- Shatter-proof PMMA acrylic plastic windshield.
 - with German type approval

Also fits many models from the brands: Aprilia, Ducati, Honda, Kawasaki, Piaggio, Suzuki, Triumph, Yamaha...

Vario-ERGO 3D+ (width: 245 mm, height: 105 mm) Transparent with bracket in silver.

A more detailed list of all other vehicles with German type approval is available on Spoileraufsatz.de.
