R 1200 GS (2010 – 2012)
R 1200 GS Adv. (– 2007)
R 1200 GS Adv. (2008 – 2009)
R 1200 GS Adv. (2010 – 2013)

This light (the smallest approved light*) with free form reflector is hardly visible when switched off. When switched on, this lamp turns together with the forks making for markedly improved road illumination: The light beam is uniform and complements the original light in an impressive manner. The GS receives a soft light transition and superb edge illumination with a supplemental cornering light. Laser cut anodised mounting kit, complete lamp unit (plastic coated), including H3 bulb, wiring kit, switch and easy to follow installation guide.

With E-approval (no registration necessary).

* The lamps are road legal E-approved in Germany. Please check the law regarding additional lights in your country.

Note:

For the R1200GS Adventure, it can be mounted with the original auxiliary lights come into contact when the vehicle is fully compressed. The Assembly is not allowed in a vehicle with original auxiliary lights.
